MEDICAL COLUMN SCALE + STADIOMETER

Weight, height and BMI — one station, one step.

Charder MS4910 Column Scale with HM201M Stadiometer

A 660 lb-capacity medical column scale with built-in castors and the HM201M stadiometer included — made for busy exam rooms.

STADIOMETER INCLUDED

660 lb
capacity (300 kg)

0.2 lb
graduation (100 g)

BMI
calculated on the scale

Why practices choose the MS4910

Safe for every patient
Die-cast platform with anti-slip mat and bubble level — suitable for bariatric patients.

Faster patient intake
HM201M mechanical stadiometer included, so weight, height and BMI happen in one stop.

Moves with your workflow
Built-in castor wheels and a waist-level backlit dual LCD readable by patient and staff.

Ready to connect
USB data output (wireless optional); compatible with the Charder TP2100 thermal printer.

Accurate BMI starts with accurate height and weight.
Measuring both at one station removes extra steps and transcription errors during patient intake.

HOW IT WORKS

1. **Step on** — Patient stands on the die-cast, anti-slip platform.
2. **Measure height** — Lower the HM201M headpiece — no second station.
3. **Read BMI** — Weight and BMI appear on the backlit dual display.

WHY TRUST IT — FDA registered & listed · Charder ISO 13485 quality system · 12-month warranty on every unit

IDEAL FOR — Primary care · General practice · Clinical nutrition · Rehabilitation · Bariatric care

A complete weighing station for the exam room
